Captain Daniel Quinn is a struggling mercenary, but when he stumbles on a secret location to a powerful energy source, he thinks his financial problems are over. After escaping an enemy ship, Daniel seeks to sell his information only to be cornered and threatened by a dangerous group of people. Tasked with locating the energy himself alongside a ruthless assassin, Daniel will learn that his mission is not so easily accomplished. Are the prospects of riches and power worth the possible enslavement of an entire alien race?
