

## Life Interrupted (The Life Series Book 1)

Rachel Reynolds isn't running from her past, but she wouldn't mind if it stopped chasing her, either. A senior in high school getting ready to graduate, Rachel is trying to look ahead toward her future, while forgetting the one night two years ago that set events in motion which altered the course of her entire life. Part of the future she's looking for includes falling out of love with her best friend, an act she seems incapable of, especially when it appears he might just love her, too. As Rachel tries to find her footing in a relationship that has baggage before it starts, a nightmare from her past reappears, upsetting the tenuous balance of Rachel's life and threatening the one person she loves most.
