

# Study Habits of Undergraduate Students: Psycho-Sociological Variables

The study habits have such a great importance with regard to educational improvement. This Book is concerned with the study habits of under graduate students in relation to certain psycho-sociological variables in S.V. University area. This Book examines the differences in the study habits of male and female students; their course of study, Govt. and private colleges; Rural and Urban; Hindu, Muslim and Christian; different castes of the students etc. It establishes the relationship between the study habits and other variables namely; personality factors, self-concepts and socio-demographic variables of the students studying in degree colleges of S.V. University.
