

Thigh Gaps and Men

Charlotte is perceived like an ordinary 19 year old girl. She has a boyfriend who she adores, a decent family, lots of friends and wants to attend University. On the outside, she is happy. She wears a smile on her face and her heart on her sleeve, but on the inside she wishes she could really be that way. Her family hates her, her mother is an alcoholic, she doesn't have contact with her father, her only friends are the demons and SummerLee Smith, a girl who died the previous year and who has come back as a ghost to haunt Charlotte. Jake, her boyfriend, is the only thing keeping her afloat. She only wants to recover because she knows it will save her relationship. But can Jake really be trusted? Will she fully recover and be happy again? Are the demons really her friends? And what is the reason behind SummerLee constantly popping up in her life?
